

# Hultgren Laboratory – Price List for Commercial Users 2026

## Research and measurement services

If you are interested in receiving measurement services, please contact us for a quotation.

As a guide, the table below provides an indication of the price rates (excl. VAT) that we apply to different types of services.

The listed prices for sample preparation and materials characterisation cover both the instrument time and operator time.

Type	Commercial rate (SEK/hr)	Min. booking time (hr)
Basic sample preparation	2,000	0.5
Advanced sample preparation	2,500	0.5
Materials characterisation measurements	2,500	1
Data analyses and report writing	1,800	1

## Independent access rates

### User training & support fees

Note: This fee is applied during tool training sessions, on top of the instrument fee associated with the tool training session.

Type	Commercial rate (SEK/hr)	Min. booking time (hr)
Basic sample preparation	900	0.5
Advanced sample preparation	1,800	0.5
Materials characterisation	1,800	1

### Discounts for frequent independent users

Type	Duration	Discount offered
Monthly invoicing	1 calendar month	20% discount if monthly total > 40,000 SEK
Quarterly invoicing: Q1	January 1 – March 30	20% discount if quarterly total > 40,000 SEK
Quarterly invoicing: Q2	April 1 – June 30	
Quarterly invoicing: Q3	July 1 – September 30	
Quarterly invoicing: Q4	October 1 – December 31	

### Independent instrument use – Commercial price rates

See next page.

## Independent instrument use – Commercial price rates

Instrument / tool	Hourly rate (SEK/hr)	Minimum booking time (hr)
<b><u>Basic sample preparation</u></b>		
Precision cutter (Cut Isomet 5000) Precision cutter (Cut Accutom 5) Cutter (Cut Discotom 2) Mounting (Mount Simplimet) Grinding machines (Grinder QPol 250) Polishing machine (Polish Phoenix 4000) Polishing machine (Polish PowerPro 5000) Electropolisher SEM (LectroPol-5) Electropolisher TEM (TenuPol) Sputter Coater - Au	375	0.5
<b><u>Advanced sample preparation</u></b>		
Broad Ion Beam Polisher Laser cutter Rolling mill	1,350	0.5
<b><u>XRD</u></b>		
XRD Bruker D8 Discover XRD Siemens	900	1
<b><u>Thermal analysis</u></b>		
Quench deformation dilatometer High temperature dilatometer TGA-DSC	1,350	1
<b><u>Microscopy</u></b>		
Light Optical Microscope	375	1
SEM Hitachi	900	1
SEM Jeol	1,350	1
FIB-SEM	1,350	1
TEM	1,800	4
APT	1,800	4
<b><u>Mechanical testing</u></b>		
Microhardness	900	1
Nanoindenter	1,350	1
Universal Testing Machine 10 kN	1,350	0.5
Universal Testing Machine 100 kN	1,350	0.5
